A striking and unique geometric lighting design. Byron is a curvaceous architectural structure that features a central hub with multiple crossbars and arms embracing sleek cylindrical elements for a unique decorative look. Each lighting element features up and down lights for task and ambient illumination. The central frame is offered in Flat Black, while the lighting elements are shown in Brushed Stainless Steel. This ceiling fixture is perfect for dining areas and entryways in modern homes, offices, and restaurants. The Byron 48 Light Chandelier is featured in our American-made, American-designed, handcrafted Contemporary Lighting Collection and manufactured in Yorkville, New York. The fixture is UL and cUL listed for dry and damp locations. This fixture was designed by David Singer of Arc Light Design in New York and is featured at a private residence in Texas.
