Engineered for precise balance and custom designed for premium taste. This compelling asymmetrical lighting design features 3 inverted fused glass shades in Red, Blue, and Amber. Designed like colorful rigging on the mast of a tall ship, this chandelier is a true work of art. Traditional artistry, high-fire kilns, and original tools fuse art glass in the old world tradition. Shades are enhanced with hardware in a Textured Black finish. Overall height ranges from 111 to 300 inches, as the aircraft cable length can be adjusted in the factory. The Metro Fusion Third Dimension Chandelier is featured in our American-made, American-designed, handmade Metro Fusion Lighting Collection. Manufactured in Yorkville, NY. UL & cUL listed for dry & damp locations.
