Innovation and elegance merge into a distinctive wall luminaire. This unique lantern design features a pointed roof and geometric metal angled accents on top with a Black Patina for interesting window-style cutouts of Clear Glass lens. This shapely lantern is designed with Integral LEDs placed strategically to create unique light effects below while delivering 1,000 lumens of beautiful light, energy savings, and long life. The robust LED luminaire uses advanced Dim-to-Warm technology ranging from a 3000K color temperature that dims down to 1800K as the brightness is reduced. The striking ceiling pendant is Dark sky-compliant and perfect for entryways and outdoor kitchens in fine homes, hotels, and other commercial spaces. The Portchester Pendant is included in our American-made, American-designed, handcrafted Traditional Lighting Collection, which is manufactured in Yorkville, New York. It is UL and cUL listed for dry, damp, and wet locations.
