Innovation and elegance merge into a distinctive outdoor wall luminaire. This unique lantern design features a pointed roof and geometric metal angled accents on top, paired with a Black Patina finish for interesting window-style cutouts and a Clear Glass lens. This shapely lantern is designed with Integral LEDs that deliver 1,000 lumens of beautiful light, energy savings, and long life. The robust LED luminaire utilizes advanced Dim-to-Warm technology, which ranges from a 3000K color temperature that dims down to 1800K as the brightness is reduced. The striking fixture is ideal for mounting on posts and columns in patios and decks of fine homes, hotels, and other commercial spaces. The Portchester Wall Sconce is included in our American-made, American-designed, handcrafted Traditional Lighting Collection, which is manufactured in Yorkville, New York. It is UL and cUL listed for dry, damp, and wet locations.
