Like a complex architectural structure, this multi-tiered chandelier features 36 Frosted White Glass Cylindres cascading down for a striking, ethereal effect. The decorative spherical elements are finished in Solar Black and suspended by nearly invisible aircraft cable. The massive, upscale chandelier is ideal for illuminating stairwells, entryways, and lobbies in fine institutional, hospitality, and residential spaces. The Cilindro 36 Light Cascading Chandelier is featured in our American-made, American-designed, Handcrafted Modern Lighting Collection, which is manufactured in Yorkville, New York. The fixture is UL- and cUL-listed for dry and damp locations. This chandelier is featured in Concord, New Hampshire-based St. Paul's School, which is dedicated to the pursuit of student excellence in character and scholarship and inspired by the beauty and spirit of its surroundings. The project also involved Available Light, headquartered in Boston, Massachusetts, designLAB Architects, also based in Boston, and New York-based Vanderweil Engineers.
