Emancipate your design freedom with this dramatic cage frame with exposed lamp display from within. Although the bulbs appear caged, the illumination and unique aesthetic appeal are not. The simplistic design of this mechanical lamp style is complemented with wooden handle and accents. The fixture is enhanced with an applied Copper Rust finish on the frame and hardware that houses Edison incandescent bulbs. The round backplate and arm are featured in a matching finish. Handcrafted by artisans in our manufacturing facility in Yorkville, NY. Custom styles, sizes, and colors are available as well as dimmable energy-efficient lamping. This fixture is UL and cUL listed for damp and dry locations.
