An explosive lighting design that will dramatic impact the aesthetics in any space. A Customer-supplied rocket shell used to prevent avalanches is the centerpiece of this unique sconce. Perforated voids in the shell reveal a Statuario Idalight diffuser which deploys ambient illumination from 2 Customer Supplied LED lamps while a Customer supplied Halogen MR16 lamp provides functional downlighting on surfaces. The custom designed rocket of light is perched on a curved Reflector panel within the sturdy frame. The wall luminaire is handcrafted by artisans at our manufacturing facility in Upstate New York in the USA. Custom sizes, styles and colors available, with dimmable, energy efficient lamping. UL and cUL listed for damp and dry locations.
