

## 21"W ANZA LANTERN WALL SCONCE | 122800

### ADDITIONAL INFORMATION

#### Dimensions and Weight

**Availability::** Custom Crafted In Yorkville, New York Please Allow 56 Days

**Item Minimum Height::** [45"](#)

**Item Maximum Height::** [45"](#)

**Item Length or Depth::** [22" Depth](#)

**Item Length or Square::** [22" Length](#)

**Item Width or Depth::** [21" Width](#)

**Item Weight::** 102 lbs.

**Base Type::** 4 PIN CFL

**Lens Color::** [Clear Glass](#)

#### Lamping

**Quantity::** 1

**Shape::** T4 QUAD

**Wattage::** 32

#### Other

**Family::** [Anza](#)

**Metal Finish::** [Silicon Bronze](#)

With exact precision and highly skilled craftsmanship, Anza was handcrafted of Solid Silicon Bronze. Bronze contains 96% solid copper and is highly resistant to corrosion and operates optimally in severe weather. California's Government specified Bronze for an outdoor lantern installed above a public library. The arm was contoured and crafted to a 3/4-inch thickness. Bronze was heated to a very specific temperature to meet the exact specifications. The energy efficient lantern uses a 32-watt 4-pin CFL to minimize energy costs and maintenance. Handcrafted with Clear beveled glass in 's facility in Upstate New York. Dating back to the 4th millennium BC in Susa (Iran), Bronze was used to make swords for Officers of the Roman Empire. The Chinese used Bronze to make vessels while the famous Bronze statue Chola of Nataraja was made in Ancient India.
