Shape:: LED

Wattage:: 17

Other

Family:: [Bigfork](#)

Metal Finish:: [Solar Black](#)

This pendant is inspired by the cave paintings and natural rock art found in the western canyons of the US, including Pictograph State Park and Bear Gulch in Montana. This organic lantern design features abstract geometric patterns representing Native American people, animals, fish, the Sun, and mythological figures. Engineers and designers collaborated closely with the talented designers of KC Design Interiors to bring this artistic project to life. Our artisans handpainted the stunning, colorful patterns with Marble on a Statuario Idalight lens, which is enhanced with a matching bottom diffuser. The hexagonal-shaped inverted shade is complemented with a frame and hardware featured in a Flat Black finish. The fixture illuminates with Integral LEDs for high-quality light, energy savings, and long life, and it offers an overall height range from 36 to 102 inches, as the chain can be easily adjusted on location to meet your precise lighting requirements. The Bigfork Lantern Pendant is included in our American-made, American-designed, handcrafted Southwest Lighting Collection, which is manufactured in Yorkville, New York. The ceiling pendant is UL & cUL listed for dry and damp locations. The lighting fixture was designed by KC Design Interiors from Newport Beach, California, and featured in the Bigfork Inn in Bigfork, Montana.
