Designed by Bryan Hamlin, the Evoke 360 Chandelier is suspended in space. A variety of impressions result from this fixture's undulating illuminated geometries when viewed from various angles. Drawing on a mixture of internal and external components from an extensive vacuum tube collection, it reinterprets these elements within its syncopated circular form as a suspended, illuminated sculpture. The Evoke 360 Chandelier is part of our American-made, American-designed Handcrafted Bryan Hamlin Collection, manufactured in Yorkville, New York. The fixture is UL and cUL Listed for dry and damp locations. The Embrace design can be customized in nearly infinite design variations, including fixtures for ceiling, wall, and floor lighting applications. This fixture can be customized in almost infinite design variations and is available in circular, elliptic, horizontal, and vertical configurations.
