This Anillo Halo Pendant blends Modernism with a Rustic Feel. A spectral halo of ambient light is projected through a Statuario Idalight diffuser and enhanced with a Textured Black finish. Eliminating the power cord, our exclusive proprietary suspension system is engineered with low-voltage spacecraft cables for balance, precision, and a clean aesthetic. Integral LEDs offer dimmability, energy savings, minimal maintenance, and long life. Ideal for illuminating reception areas, lobbies, and entryways in hospitality, residential, and commercial office spaces. The overall height of this pendant ranges from 6 to 180 inches, as the cable length can be easily adjusted in the field. Inspired by celestial halos that can be seen in planetariums from Manhattan in New York City, to Burke Baker Planetarium in Houston, to Samuel Oschin Planetarium in Los Angeles, California. The Anillo Halo Pendant is included in our American-made, American-designed, Modern Anillo Lighting Collection and manufactured in Yorkville, New York.
