A magnificent spinning gimbal. Inspired by celestial spheres above, this open HandForged Iron framework of Timeless Bronze finished circular bands surround an 8 light faux candelabra that provides ambient illumination. The chandelier evokes a feeling of rotating movement on its axis as it is complemented with a smaller orb above. The overall height ranges from 61 to 156 inches and the chain length can be easily adjusted in the field to accommodate your specific lighting application needs. Handcrafted by highly skilled artisans in our 180,000 square foot manufacturing facility in Yorkville, New York. Available in nearly any size, diffuser color or finish. UL and cUL listed for dry and damp locations.
