A fan-tastic decorating idea combining an old world look with modern technology. This custom lighting fan-integrated innovation features a handsome, rugged frame with a matching fan and hardware in an attractive Black finish. Adorned with eight Amber faux candlelights for decorative illumination, the fixture includes a fan that spins quietly in the center. In summer, the fan pushes down a windchill that circulates to keep the space cool and comfortable. In winter, the fan is reversed to pull the room air up towards the ceiling and force the warm air back down, and circulate to create warmth. The Chandel-Air is ideal for installation in great rooms and dining spaces in homes and hospitality locations from Mobile, Alabama, to Akron, Ohio, to Huntington Beach, California. The Kingston 8 Light Chandel-Air is included in our American-made, American-designed, handcrafted Chandel-Air Collection and manufactured in Yorkville, NY. UL & cUL listed for dry and damp locations.
