Like a complex gyroscopic structure, Blackwash finished Iron rings create a unique curvature pattern that evokes the illusion of revolutionary motion, like a spinning gimbal rotating on its axis. A horizontal band is featured in a Copper finish. The orbbed frame envelops 8 Complementary faux candlelights. The overall height ranges from 50 to 169 inches, as the chain length can be easily adjusted in the field. The Atlas Pendant is included in our American-made, American-designed, handmade Transitional Lighting Collection. Manufactured in Yorkville, NY. UL & cUL listed for dry and damp locations.
