Like a complex gyrosopic structure, Solar Black finished metal rings create a unique curvature pattern that evokes the illusion of revolutionary motion like a spinning gimbal rotating on its axis. The orbbed frame wraps around 12 complementary faux candlelights perched on matching bobeches. Overall height ranges from 50 to 229 inches as the chain easily adjusts in the field. The fixture is ideal for illuminating dining tables, lobbies, entryways, and other residential, hospitality, and commercial spaces from Cape Canaveral, Florida, to Houston, Texas. The Atom Enerjisi Chandelier is featured in our American-made, American-designed, handcrafted Atom Lighting Collection, which is manufactured in Yorkville, New York. UL and cUL listed for dry and damp locations.
