Pronograde is an architectural structure that features a crossbar configuration with four arms embracing round Edison-style lamps for a unique decorative look. The frame and hardware are finished in Flat Black, while the lamp fitters are featured in Brushed Stainless Steel. This lighting design is perfect for entryways and larger spaces in modern homes, offices, and labs. The Pronograde Chandelier is included in our American-made, American-designed, handcrafted Industrial Lighting Collection. The fixture is UL and cUL listed for dry and damp locations. This fixture was designed by David Singer of Arc Light Design in New York and is featured at a private residence in Texas.
