**Wattage::** [60](#)

**Family::** [Atlas](#)

**Metal Finish::** [Wrought Iron](#)

Like a complex gyroscopic structure, Wrought Iron finished Iron rings create a unique curvature pattern that evokes the illusion of revolutionary motion like a spinning gimbal rotating on its axis. The orbbed frame envelops a smaller frame similar to one that represents atomic energy, which wraps around an elegant Amber 6-light faux candelabra. Custom crafted in the USA, this fixture is available in custom colors, designs and sizes, as well as dimmable energy efficient lamping options. UL and cUL listed for damp and dry locations.
