**Metal Finish::** [Textured Black](#)

Like a complex gyrosopic structure, Textured Black finished steel rings create a unique curvature pattern that evokes the illusion of revolutionary motion like a spinning gimbal rotating on its axis. The orbbed frame envelopes a smaller frame similar to one that represents atomic energy, which wraps around an elegant faux 8-light faux candelabra. Custom crafted in the USA, this fixture is available in custom colors, designs and sizes, as well as dimmable energy efficient lamping options. The chandelier is UL and cUL listed for damp and dry locations.
