With its graceful structure and elevated style, the Granville Chandelier delivers a masterful blend of luxury and presence. This statement fixture was created to enhance refined spaces with warmth, beauty, and sophistication. The exquisite chandelier features the luxury of authentic leather straps and polished brass accents, complemented by a bold Solar Black finish. The overall height ranges from 32 to 106 inches, as the chain can be easily adjusted on location. The fixture features eight White faux candlelights for decorative ambient lighting and four downlights for task lighting on surfaces below. The candlelights and downlights benefit from two separate circuits, allowing for precise dimming control over the layers of light to create the perfect ambiance in the space. The Granville Chandelier is featured in our American-made, American designed Transitional Lighting Collection and is made in Yorkville, New York. UL and cUL listed for dry and damp locations. Special thanks to Renee Bohman of Renee Bohman Interior Design and Allen Fankhauser of Bernard Electric Supply Co. Inc., Both of Columbus, Ohio, for their work on this project.
