The Reginald Pendant features two curvaceous rings hand-finished in Gold Metallic on the interior and Tyler Bronze on the exterior. Beautiful ambient illumination is provided by eight E26 G40 lamps, each designed as a large, globe-shaped bulb with a 5-inch (125-127mm) diameter and a standard Edison screw E26 base. These bulbs typically range from 6.5 to 7.6 inches in total height. The lighting fixture's overall height ranges from 28 to 99 inches, and the chain adjusts easily in the field to meet your exact lighting specifications. Lace the ceiling fixture over kitchen and dining tables, and in entryways, to create a dramatic design statement in fine homes, restaurants, and other residential and hospitality locations. The Reginald 8 Light Pendant is included in our American-made, American-designed, handcrafted Transitional Lighting Collection and manufactured in Yorkville, New York. L and cUL listed for dry and damp locations. Designed and produced for the Highpoint, New York-based Belleayre Mountain Ski Center project, which was recently expanded with state-of-the-art enhancements.
