Atom Enerjisi is designed like a complex gyroscopic structure. Oil Rubbed Bronze finished rings create a unique curvature pattern that evokes the illusion of revolutionary motion like a spinning gimbal rotating on an axis. The orbed frame envelopes a smaller frame similar to one that represents atomic energy. The orbs wrap around 12 complementary faux candlelights. The overall height ranges from 62 to 242 inches as the chain length can be easily adjusted in the field to accommodate your specific lighting needs. Candlelight colors, metal finishes and fixture sizes can be customized to your needs. UL and cUL listed for dry and damp locations.
