This chandelier is custom crafted with a frame and hardware featured in an Industrial Steel finish for Stone Brewing World Bistro & Gardens, which was designed by David Robertson in San Diego. The beer bottles and lamping were provided by the customer, however we would be happy to create a fixture using your components including wine bottles, beer bottles or a specific type of lamps such as LEDs. This item is shown as an example of our craftsmanship capabilities. It is not for sale as is, but can be personalized to fit your personal needs. Custom sizes, styles and colors are available.
