Atom Enerjisi is designed like a complex gyrosopic structure. Textured Black finished rings create a unique curvature pattern that evokes the illusion of revolutionary motion like a spinning gimbal rotating on an axis. The orbed frame envelopes a smaller frame similar to one that represents atomic energy. The orbs wrap around 8 elegant White faux candlelights. Handcrafted by master artisans in our 180,000 square foot manufacturing facility in Yorkville, New York. Fixture designs, metal finishes and sizes can be customized to meet your needs. UL and cUL listed for damp and dry locations.
