Like a solar system with brilliant stars sparkling in the sky as intriguing points of light, the massive Geosphere Pendant is a mesmerizing constellation of geometric metal lines that inspire mystery, curiosity, and the seduction of the unknown. The eye-catching fixture is constructed with Stainless Steel to withstand the test of time and offer a unique shine. Hints of Ocher accent this Stainless Steel mass of curve-shaped wire forms surrounding the Statuario Idalight orb while delivering ambient illumination. The lighting design was inspired by planetariums from New York, New York and Washington, DC, to Chicago, Illinois and Houston, Texas, to Sun Valley, Utah and San Francisco in California. The pendant has an overall height ranging from 80 to 118 inches as the spacecraft cables easily adjust in the field to meet your exact lighting requirements. The Geosphere Pendant is included in our American-made, American-designed, handcrafted Modern Lighting Collection and manufactured in Yorkville, New York. UL & cUL listed for dry and damp locations.
