Unleashing a dynamic blend of dramatic ambient lighting, this unique turbine profile reveals a detail fluted look of power and technology for any room in a commercial or residential setting. This fluted design is inspired by century-old louvers used for engine heat ventilation in the aviation and automotive industries. The diffuser is handcrafted of solid steel with a Wrought Iron finish and matching floor base. Custom designs, styles, sizes and dimmable energy efficient lamping options are available. The lamp is UL and cUL listed for damp and dry locations.
