The Cilindro Ventura is designed by Donna Watson-Rossmoore and Patricia Biechler of Donna Watson-Rossmoore Designs of Winter Garden, FL. This distinctive dual-function lighting/fan innovation features energy-efficient technologies. A hand finished Antique Copper ring embraces a stunning Linen Textrene diffuser, complemented with straight line accents finished in Extreme Chrome. A 30-inch fan spins quietly in the center. Canopy, arms, and supports are hand finished in Pewter. In summer, the fan pushes down a windchill that circulates to keep the space cool and comfortable. In winter, the fan is reversed to pull the room air up towards the ceiling and force the warm air back down and circulate to create warmth. Handcrafted in Yorkville, NY.
