Designed by Bryan Hamlin, the Reflect Wall Sconce draws inspiration from the Art Deco style of radios. Celebrating the visual dynamics of solid and voided space, light interweaves with shadow within its metallic sculptural forms. This wall fixture reinterprets vacuum tube radios through complex geometries realized in luxurious finishes. The fixture is shown in an Oil Rubbed Bronze finish with a Plated Brushed Brass outer ring. The Reflect Wall Sconce is included in our American-made, American-designed, handcrafted Bryan Hamlin Collection and is manufactured in Yorkville, New York. The fixture is UL and cUL listed for dry and damp locations. The Embrace design can be customized in nearly infinite design variations, including fixtures for ceiling, wall, and floor lighting applications.
