This massive, awe-inspiring chandelier combines Mission designs with a gorgeous rustic look. The nine handsome lanterns feature a stunning Craftsman Signature T Mission design with a Beige Iridescent glass diffuser. The fixture is complemented with Brass hardware finished in Craftsman Brown. Oil Rubbed Bronze finished canopies embrace the pendants and are attached to a Pine wooden frame with a Red Mahogany Stain. The Pocono Pool House 9 Light Chandelier is included in our American-made, American-designed, handcrafted Craftsman Signature Series and manufactured in Yorkville, New York. UL and cUL listed for dry, damp, and wet locations. This stunning ceiling fixture is featured at a private residence in the Poconos in Pennsylvania. Our Build Your Own Craftsman Signature Series features unlimited combinations of styles. The collection is called Build Your Own because it is fully configurable and customizable from size and design to finish and lens color. Marine grade, solid brass or copper raw materials ensure Craftsman Signature outdoor and indoor lighting fixtures will stand the test of time as these premium metals are impervious to most types of oxidation. Hand-applied Patina finishes on brass and copper are sealed with a clear varnish and, over time, may require gentle maintenance, such as waxing, to delay or reverse the natural living finish attributes. Patina finishes on Brass and Copper provide strong resistance to fading from sun exposure and will not chip, crack, or rust like a steel-framed fixture in the same conditions. Choose from many style options, or send us your concept today! Call today to learn how to use the configuration tool available on our website for an instant item number!
