Designed by Bryan Hamlin, the Resonate Chandelier features sculptural shade forms that rhythmically repeat along a curved axis while glowing softly from concealed Integral 3000K LED light sources. Inspired by adjacency radial patterns of radio, tube, and broadcasting equipment engineering, the Brass fixture transforms these cold mechanized forms into warm and inviting fixture designs. The chandelier features a Statuario Idalight diffuser, which is enhanced with a Satin Brass finish. The Resonate Chandelier is included in our American-made, American-designed Handcrafted Bryan Hamlin Collection, manufactured in Yorkville, New York. The fixture is UL and cUL Listed for dry and damp locations. The Resonate design can be customized in nearly infinite design variations, including fixtures for ceiling, wall, and floor lighting applications.
